Response to Amendment

1. In response to the Applicant's amendment received 1/18/05, all requested changes to the claims have been entered. Furthermore Examiner forgot to acknowledge the title change in the amendment received 5/18/04, thus this is done so now. The title of the invention has been entered and for clarification is METHOD FOR MONITORING A DETECTION REGION OF A WORKING ELEMENT. Finally regarding the preliminary amendment received 6/4/01, the substitute specification and drawing have been acknowledged and entered.

Claims 73-77 are pending in the application and claims 1-72 and 78-89 are cancelled.

Reasons for Allowance

2. Claims 73-77 are allowed.

3. The following is an examiner's statement of reasons for allowance: Claims 74-77 were objected to in the previous office action as being dependent on a rejected claim but containing allowable subject matter that would be allowable if rewritten in independent form. As the amended claims 74 and 77 have been written in independent form and claims 73 and 75-76 are dependent on claim 74 the claims are now in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
